This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title page**Genetic screening of male patients with primary hypogammaglobulinemia can guide diagnosis and clinical management**

Nicolas Vince^{*1,2,3}, Gaël Mouillot^{*4}, Marion Malphettes^{1,5}, Sophie Limou^{2,3,6}, David Boutboul¹, Angélique Guignet¹, Véronique Bertrand⁴, Philippe Pellet⁴, Pierre-Antoine Gourraud^{2,3}, Patrice Debré⁴, Eric Oksenhendler⁵, Ioannis Théodorou⁴, Claire Fieschi^{1,5}; and the DEFI Study Group.

Abbreviated title:

Genetic screening of hypogammaglobulinemia
