Title: Antibiotic resistance genes in phage particles isolated from human feces and induced from clinical bacterial isolates

Author: Maryury Brown-Jaque, William Calero-Cáceres, Paula Espinal, Judith Rodríguez-Navarro, Elisenda Miró, Juan José González-López, Thais Cornejo, Juan Carlos Hurtado, Ferran Navarro, Maite Muniesa

PII: S0924-8579(17)30431-4
DOI: <https://doi.org/10.1016/j.ijantimicag.2017.11.014>
Reference: ANTAGE 5306

To appear in: *International Journal of Antimicrobial Agents*

Received date: 15-7-2017
Accepted date: 18-11-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Antibiotic resistance genes in phage particles isolated from human feces and**
2 **induced from clinical bacterial isolates**
