

## Accepted Manuscript

Title: Haplotypes composed of minor frequency single nucleotide polymorphism of tnf gene protect from progression into sepsis: A study using the new sepsis classification

Authors: Theodoros Retsas, Klaus Huse, Lazaros-Dimitrios Lazaridis, Niki Karampela, Michael Bauer, Matthias Platzer, Virginia Kolonia, Eirini Papageorgiou, Evangelos J. Giamarellos-Bourboulis, George Dimopoulos

PII: S1201-9712(17)30320-X  
DOI: <https://doi.org/10.1016/j.ijid.2017.12.008>  
Reference: IJID 3116

To appear in: *International Journal of Infectious Diseases*

Received date: 28-9-2017  
Revised date: 4-12-2017  
Accepted date: 7-12-2017

Please cite this article as: Retsas Theodoros, Huse Klaus, Lazaridis Lazaros-Dimitrios, Karampela Niki, Bauer Michael, Platzer Matthias, Kolonia Virginia, Papageorgiou Eirini, Giamarellos-Bourboulis Evangelos J, Dimopoulos George. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
