Impact of active surveillance and infection control measures on carbapenem-resistant Gram-negative bacterial colonization and infections in intensive care

T. Karampatakis, K. Tsergouli, E. Iosifidis, C. Antachopoulos, A. Karapanagiotou, A. Karyoti, N. Gritsi-Gerogianni, A. Tsakris, E. Roilides

PII: S0195-6701(18)30275-5

DOI: [10.1016/j.jhin.2018.05.010](https://doi.org/10.1016/j.jhin.2018.05.010)

Reference: YJHIN 5435

To appear in: *Journal of Hospital Infection*

Received Date: 27 February 2018

Accepted Date: 15 May 2018

Please cite this article as: Karampatakis T, Tsergouli K, Iosifidis E, Antachopoulos C, Karapanagiotou A, Karyoti A, Gritsi-Gerogianni N, Tsakris A, Roilides E, Impact of active surveillance and infection control measures on carbapenem-resistant Gram-negative bacterial colonization and infections in intensive care, *Journal of Hospital Infection* (2018), doi: 10.1016/j.jhin.2018.05.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Impact of active surveillance and infection control measures on carbapenem-resistant Gram-negative bacterial colonization and infections in Intensive Care**
