This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Sepsis is being recognized as a global public health issue
- WHO annual global hand hygiene campaign focuses on sepsis in health care in 2018
- The 2018 campaign slogan is “It’s in your hands – prevent sepsis in healthcare”
