Subchondral Trabecular Bone Integrity Changes Following ACL Injury and Reconstruction: A Cohort Study with a Nested, Matched Case-Control Analysis

C.E. Birch, MD, K.S. Mensch, MD, M. Desarno, MS, B.D. Beynnon, PhD, T.W. Tourville, PhD, ATC

PII: S1063-4584(18)31079-3

DOI: [10.1016/j.joca.2018.02.905](https://doi.org/10.1016/j.joca.2018.02.905)

Reference: YJOCA 4192

To appear in: *Osteoarthritis and Cartilage*

Received Date: 19 June 2017

Revised Date: 31 January 2018

Accepted Date: 27 February 2018

Please cite this article as: Birch CE, Mensch KS, Desarno M, Beynnon BD, Tourville TW, Subchondral Trabecular Bone Integrity Changes Following ACL Injury and Reconstruction: A Cohort Study with a Nested, Matched Case-Control Analysis, *Osteoarthritis and Cartilage* (2018), doi: 10.1016/j.joca.2018.02.905.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
