

## Accepted Manuscript

Pre-transplant AT1R antibodies correlate with early allograft rejection

Alison J. Gareau, Chris Wiebe, Denise Pochinco, Ian W. Gibson, Julie Ho, David N. Rush, Peter W. Nickerson

PII: S0966-3274(17)30107-7  
DOI: doi:[10.1016/j.trim.2017.12.001](https://doi.org/10.1016/j.trim.2017.12.001)  
Reference: TRIM 1117  
To appear in: *Transplant Immunology*  
Received date: 9 September 2017  
Revised date: 3 December 2017  
Accepted date: 3 December 2017

Please cite this article as: Alison J. Gareau, Chris Wiebe, Denise Pochinco, Ian W. Gibson, Julie Ho, David N. Rush, Peter W. Nickerson , Pre-transplant AT1R antibodies correlate with early allograft rejection. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Trim*(2017), doi:[10.1016/j.trim.2017.12.001](https://doi.org/10.1016/j.trim.2017.12.001)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Pre-transplant AT<sub>1</sub>R Antibodies Correlate with Early Allograft Rejection
