

## Accepted Manuscript

Title: Molecular epidemiology and in vitro evidence suggest that *Leishmania braziliensis* strain helps determine antimony response among American tegumenary leishmaniasis patients

Authors: Silvana C. Silva, Luiz Henrique Guimarães, Juliana A. Silva, Viviane Magalhães, Lilian Medina, Adriano Queiroz, Paulo Roberto L. Machado, Albert Schriefer

PII: S0001-706X(17)30380-7  
DOI: <https://doi.org/10.1016/j.actatropica.2017.10.010>  
Reference: ACTROP 4471

To appear in: *Acta Tropica*

Received date: 30-3-2017  
Revised date: 21-7-2017  
Accepted date: 13-10-2017
