Point-of-care and point-of-“can”: Leveraging reference-laboratory capacity for integrated diagnosis of fever syndromes in the tropics

Makeda Semret, Momar Ndao, Jan Jacobs, Cedric P. Yansouni

PII: S1198-743X(18)30322-7

DOI: [10.1016/j.cmi.2018.03.044](https://doi.org/10.1016/j.cmi.2018.03.044)

Reference: CMI 1275

To appear in: *Clinical Microbiology and Infection*

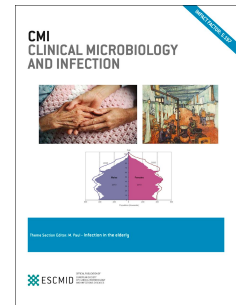

Received Date: 11 January 2018

Revised Date: 29 March 2018

Accepted Date: 30 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Point-of-care and point-of-“can”: Leveraging reference-laboratory capacity for integrated diagnosis of fever syndromes in the tropics

Makeda Semret¹, Momar Ndao², Jan Jacobs^{3,4}, Cedric P Yansouni^{1*}

¹ J.D. MacLean Centre for Tropical Diseases, McGill University Health Centre, Montreal, Canada;

² National Reference Centre for Parasitology, Montreal, Canada;

³ Institute of Tropical Medicine, Antwerp, Belgium;

⁴ KU Leuven, Department of Microbiology and Immunology, Leuven, Belgium

Pages: 37

Tables: 2

Figures: 1

Word count: 3140, plus abstract (298)

Running Title: Reference laboratories for integrated diagnosis of fever syndromes

Key Words (2-6): “fever”, “non-malarial febrile illness”, “diagnostic tests”, “laboratories”, “surveillance”, “tropical medicine”
