

Accepted Manuscript

Turnaround time of whole genome sequencing for mycobacterial identification and drug susceptibility testing in routine practice

Ioana D. Olaru, Hemu Patel, Katharina Kranzer, Nelun Perera

PII: S1198-743X(17)30537-2

DOI: [10.1016/j.cmi.2017.10.001](https://doi.org/10.1016/j.cmi.2017.10.001)

Reference: CMI 1084

To appear in: *Clinical Microbiology and Infection*

Received Date: 9 August 2017

Revised Date: 30 September 2017

Accepted Date: 1 October 2017

Please cite this article as: Olaru ID, Patel H, Kranzer K, Perera N, Turnaround time of whole genome sequencing for mycobacterial identification and drug susceptibility testing in routine practice, *Clinical Microbiology and Infection* (2017), doi: 10.1016/j.cmi.2017.10.001.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Manuscript type: Research note

Running title: Turnaround time of whole genome sequencing for mycobacteria

Title: Turnaround time of whole genome sequencing for mycobacterial identification and drug susceptibility testing in routine practice

Authors: Ioana D. Olaru*¹, Hemu Patel¹, Katharina Kranzer^{2,3}, Nelun Perera¹

Affiliations:

¹ Department of Clinical Microbiology, University Hospitals of Leicester NHS Trust, Leicester, United Kingdom

² National Mycobacterium Reference Laboratory, Research Center Borstel, Borstel, Germany

³ London School of Hygiene and Tropical Medicine, London, United Kingdom
