This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Early versus late diagnosis in community-acquired bacterial meningitis: A retrospective cohort study

Authors:

Jacob Bodilsen, MD, Department of Infectious Diseases, Aalborg University Hospital, Aalborg, Denmark.

Christian Thomas Brandt, MD DMSc, Department of Pulmonary and Infectious Diseases, Nordsjællands Hospital, University of Copenhagen, Denmark.

Andrew Sharew, Medical Student, University of Copenhagen, Copenhagen, Denmark.

Michael Dalager-Pedersen, MD PhD, Department of Infectious Diseases, Aalborg University Hospital, Aalborg, Denmark.

Thomas Benfield, MD DMSc., Department of Infectious Diseases, Hvidovre Hospital, University of Copenhagen, Denmark.

Professor Henrik Carl Schønheyder, MD DMSc, Department of Clinical Microbiology, Aalborg University Hospital, Aalborg, Denmark and Department of Clinical Medicine, Aalborg University, Aalborg, Denmark

Professor Henrik Nielsen, MD DMSc, Department of Infectious Diseases, Aalborg University Hospital, Aalborg, Denmark and Department of Clinical Medicine, Aalborg University, Aalborg, Denmark.

Keywords: Bacterial meningitis, diagnostic delay, late diagnosis, outcome, cranial imaging, treatment delay.

Running title: Early vs. late diagnosis in bacterial meningitis.

Word count: 2498.
