This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Case report

Title: Concomitant Human Herpesvirus 6 and nivolumab-related pneumonitis: potential pathogenetic insights

Periklis G. Foukas^{a,1}, Sotirios Tsiodras^{b,1}, Panagiota Economopoulou^c, Aris Spathis^d, Maria Mademli^e, Konstantinos Leventakos^{a,2}, Amanda Psyrris^c, Petros Karakitsos^d, Ioannis G. Panayiotides^a

^a 2nd Department of Pathology, School of Medicine, National and Kapodistrian University of Athens, Attikon University Hospital, Athens, Greece

^b 4th Department of Internal Medicine, School of Medicine, National and Kapodistrian University of Athens, Attikon University Hospital, Athens, Greece

^c Medical Oncology Unit, 2nd Department of Internal Medicine, School of Medicine, National and Kapodistrian University of Athens, Attikon University Hospital, Athens, Greece

^d Department of Cytopathology, School of Medicine, National and Kapodistrian University of Athens, Attikon University Hospital, Athens, Greece

^e 2nd Department of Radiology, School of Medicine, National and Kapodistrian University of Athens, Attikon University Hospital, Athens, Greece

¹ Equal contribution

² Current address: Fellow in Hematology-Oncology, Mayo Clinic, Rochester, MN, 55905, USA
