

## Accepted Manuscript

Title: Positive fecal occult blood test as a diagnostic cue for *Schistosoma mansoni* infection in a developed country

Authors: Itaru Nakamura, Kenji Yagi, Takashi Kumagai, Nobuo Ohta

PII: S2214-2509(17)30176-2  
DOI: <https://doi.org/10.1016/j.idcr.2017.10.005>  
Reference: IDCR 315

To appear in:

Received date: 20-9-2017  
Revised date: 17-10-2017  
Accepted date: 17-10-2017

Please cite this article as: Itaru Nakamura, Kenji Yagi, Takashi Kumagai, Nobuo Ohta, Positive fecal occult blood test as a diagnostic cue for *Schistosoma mansoni* infection in a developed country (2010), <https://doi.org/10.1016/j.idcr.2017.10.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Positive fecal occult blood test as a diagnostic cue for *Schistosoma mansoni* infection  
in a developed country**
