Title: Effect of Elevated Imipenem/Cilastatin MICs on Patient Outcomes in Gram-negative Bloodstream Infections

Authors: Milena M. McLaughlin, Cristina Miglis, Erik Skoglund, Jamie Wagner, Maria R. Advincula, Marc H. Scheetz

PII: S2213-7165(18)30030-4
DOI: <https://doi.org/10.1016/j.jgar.2018.02.003>
Reference: JGAR 597

To appear in:

Received date: 14-9-2017
Revised date: 24-1-2018
Accepted date: 2-2-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of Elevated Imipenem/Cilastatin MICs on Patient Outcomes in Gram-negative Bloodstream Infections

Running title: High Carbapenem MICs in BSI
