

Accepted Manuscript

Title: Novel and highly sensitive sybr® green real-time pcr for poxvirus detection in odontocete cetaceans

Authors: Carlos Sacristán, José Luiz Catão-Dias, Ana Carolina Ewbank, Eduardo Ferreira Machado, Elena Neves, Elitieri Batista Santos-Neto, Alexandre Azevedo, José Laison-Brito Jr., Pedro Volkmer De Castilho, Fábio Gonçalves Daura-Jorge, Paulo César Simões-Lopes, Matilde Carballo, Daniel García-Párraga, José Manuel Sánchez-Vizcaíno, Fernando Esperón

PII: S0166-0934(18)30115-0
DOI: <https://doi.org/10.1016/j.jviromet.2018.06.002>
Reference: VIRMET 13476

To appear in: *Journal of Virological Methods*

Received date: 20-3-2018
Revised date: 5-6-2018
Accepted date: 7-6-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

NOVEL AND HIGHLY SENSITIVE SYBR® GREEN REAL-TIME PCR FOR POXVIRUS DETECTION IN ODONTOCETE CETACEANS

Running title: Real-time PCR method for poxvirus detection
