Emergence of a multi host biofilm forming opportunistic pathogen *Staphylococcus sciuri* D26 in coral *Favites abdita*

S. Divya, T. Thinesh, G. Seghal Kiran, Joseph Selvin

PII: S0882-4010(17)31381-5

DOI: [10.1016/j.micpath.2018.04.037](https://doi.org/10.1016/j.micpath.2018.04.037)

Reference: YMPAT 2916

To appear in: *Microbial Pathogenesis*

Received Date: 25 October 2017

Revised Date: 4 March 2018

Accepted Date: 22 April 2018

Please cite this article as: Divya S, Thinesh T, Seghal Kiran G, Selvin J, Emergence of a multi host biofilm forming opportunistic pathogen *Staphylococcus sciuri* D26 in coral *Favites abdita*, *Microbial Pathogenesis* (2018), doi: 10.1016/j.micpath.2018.04.037.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1. Isolation and characterization of a biofilm forming *Staphylococcus sciuri* D26

2. Inhibition of coral immune factors,  
(i) melanin production and  
(ii) phenoloxidase  
by *S. sciuri* D26  
(Opportunistic pathogen)

3. Revealing pathogenicity in *Aptasia* model
