

Accepted Manuscript

Extracellular enzymes and adhesive properties of medically important *Candida* spp. strains from landfill leachate

Dahmani Amani, Noumi Emira, Trabelsi Ismail, Eddouzi Jamel, Sanglard Dominique, Del Campo Rosa, Snoussi Mejd

PII: S0882-4010(17)31394-3

DOI: [10.1016/j.micpath.2018.01.042](https://doi.org/10.1016/j.micpath.2018.01.042)

Reference: YMPAT 2759

To appear in: *Microbial Pathogenesis*

Received Date: 26 October 2017

Revised Date: 5 January 2018

Accepted Date: 26 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Extracellular enzymes and adhesive properties of medically important *Candida* spp.**
2 **strains from landfill leachate**
