Gene expression profiling of the TRIM protein family reveals potential biomarkers for indicating tuberculosis status

Yanqing Chen, Shuhui Cao, Yong Sun, Chuanyou Li

PII: S0882-4010(17)31535-8

DOI: [10.1016/j.micpath.2017.12.008](https://doi.org/10.1016/j.micpath.2017.12.008)

Reference: YMPAT 2644

To appear in: *Microbial Pathogenesis*

Received Date: 20 November 2017

Revised Date: 3 December 2017

Accepted Date: 4 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Gene Expression Profiling of the TRIM Protein Family Reveals Potential Biomarkers for Indicating Tuberculosis Status
