Synthesis of nano-cuboidal gold particles for effective antimicrobial property against clinical human pathogens

Paskalis Sahaya Murphin Kumar, Davoodbasha MubarakAli, Rijuta Ganesh Saratale, Ganesh Dattatraya Saratale, Arivalagan Pugazhendhi, Kumar Gopalakrishnan, Nooruddin Thajuddin

PII: S0882-4010(17)31246-9

DOI: [10.1016/j.micpath.2017.10.032](https://doi.org/10.1016/j.micpath.2017.10.032)

Reference: YMPAT 2541

To appear in: *Microbial Pathogenesis*

Received Date: 29 September 2017

Revised Date: 16 October 2017

Accepted Date: 16 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
