Genetic diversity and phylogenetic relations of salmon trematode
Nanophyetus japonensis

Anastasia Voronova, Galina N. Chelomina

PII: S1383-5769(17)30319-7
DOI: doi:[10.1016/j.parint.2018.01.002](https://doi.org/10.1016/j.parint.2018.01.002)
Reference: PARINT 1755
To appear in: *Parasitology International*
Received date: 14 July 2017
Revised date: 11 January 2018
Accepted date: 14 January 2018

Please cite this article as: Anastasia Voronova, Galina N. Chelomina , Genetic diversity and phylogenetic relations of salmon trematode *Nanophyetus japonensis*. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Parint*(2017), doi:[10.1016/j.parint.2018.01.002](https://doi.org/10.1016/j.parint.2018.01.002)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Genetic diversity and phylogenetic relations of salmon trematode *Nanophyetus japonensis*

Anastasia Voronova and Galina N. Chelomina*
