This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Title:

Positive predictive value estimates for cell-free noninvasive prenatal screening from data of a large referral genetic diagnostic laboratory

Authors:

Andrea K. PETERSEN, MD[2], Sau Wai CHEUNG, PhD[1,2], Janice L. SMITH, PhD[1,2], Weimin BI, PhD[1,2], Patricia A. WARD, MS[1,2], Sandra PEACOCK, MS[1], Alicia BRAXTON, MS[1,2], Ignatia B. VAN DEN VEYVER[2,3,4], Amy M. BREMAN, PhD. [1,2]

[1]Baylor Genetics, Houston, TX, [2]Department of Molecular and Human Genetics, [3]Department of Obstetrics and Gynecology, Baylor College of Medicine, Houston, TX. [4]Texas Children's Hospital, Houston, TX.

Disclosure statement: S.W.C., J.L.S, P.A.W., S.P., A.B. and A.M.B. are affiliated with Baylor Genetics, which offers extensive genetic laboratory testing and derives revenue from this activity. The remaining authors report no conflict of interest.

Financial support statement: none
