This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Effect of remote cesarean delivery on complications during hysterectomy: **a cohort**
2 **study**

3

4 **Authors:**

5 Susanne HESSELMAN, M.D. ^{a,b}, Ulf HÖGBERG, Prof. ^a, Maria JONSSON, Ph.D. ^a

6

7 **Affiliations:**

8 ^aDepartment of Women's and Children's Health, Uppsala University, Uppsala, Sweden

9 ^bCenter for Clinical Research Dalarna, Falun, Sweden

10

11 **Conflicts of interest:**

12 Susanne Hesselman states explicitly that there are no conflicts of interest in connection
13 with this article.

14

15 Maria Jonsson states explicitly that there are no conflicts of interest in connection with
16 this article.

17

18 Ulf Högberg states explicitly that there are no conflicts of interest in connection with this
19 article.

20

21 **Funding**

22 This work was supported by grants from the Center for Clinical Research Dalarna (CKF
23 UU 507631), the Swedish Research Council (project number 2012-00087), and Uppsala-
24 Orebro Regional Research Council (RFR310821). The funders had no involvement in the
25 collection, analysis, and interpretation of the data or on the decision to submit the article
26 for publication.
