Quality of life and adaptation in people with spinal cord injury: Response shift effects from one to five years' post-injury

Carolyn E. Schwartz, Sc.D, Brian Stucky, Ph.D., Carly S. Rivers, Ph.D., Vanessa K. Noonan, P.T., Ph.D., Joel A. Finkelstein, MD, MSc, FRCS(C)

PII: S0003-9993(18)30117-5

DOI: [10.1016/j.apmr.2018.01.028](https://doi.org/10.1016/j.apmr.2018.01.028)

Reference: YAPMR 57163

To appear in: *ARCHIVES OF PHYSICAL MEDICINE AND REHABILITATION*

Received Date: 1 August 2017

Revised Date: 24 January 2018

Accepted Date: 26 January 2018

Please cite this article as: Schwartz CE, Stucky B, Rivers CS, Noonan VK, Finkelstein JA, for the RHSCIR Network, Quality of life and adaptation in people with spinal cord injury: Response shift effects from one to five years' post-injury, *ARCHIVES OF PHYSICAL MEDICINE AND REHABILITATION* (2018), doi: 10.1016/j.apmr.2018.01.028.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
