This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running Head: Physical Performance and Limb Amputation

Differences in Physical Performance Measures among Patients with Unilateral Lower-Limb Amputations Classified as Functional Level K3 versus K4

Jaclyn Megan Sions, PhD, DPT;¹ Emma Haldane Beisheim, MS;¹ Tara Jo Manal, DPT, OCS;¹ Sarah Carolyn Smith, DPT;¹ John Robert Horne, CPO;² Frank Bernard Sarlo, MD³

¹University of Delaware, Department of Physical Therapy, Newark, DE; ²Independence Prosthetics-Orthotics, Inc., Newark, DE; ³Christiana Spine Center, Newark, DE

Acknowledgments:

Presentation: This data was presented, in part, at the AOPA National Assembly in Boston, MA on 9/10/2016, as a platform presentation entitled: Differences in Physical Performance Measures among Patients with Unilateral Limb Amputations Classified as Functional Level K3 versus K4.

Funding: This research did not receive any specific grant from funding agencies in the public, commercial or not-for-profit sectors. However, data analysis and manuscript preparation was provided, in part, by the National Institute of Health grant 5T32HD007490-17.

Conflicts of interest: Dr. Sions is a consultant for Independence Prosthetics-Orthotics, Inc.
