A new and accurate predictive model for the efficacy of extracorporeal shock wave therapy in managing patients with chronic plantar fasciitis

Mengchen Yin, MD, Ni Chen, MD, Quan Huang, MD, Anastasia Sulindro Marla, MD, Junming Ma, MD, Jie Ye, MD, Wen Mo, MD

PII: S0003-9993(17)30397-0

DOI: [10.1016/j.apmr.2017.05.016](https://doi.org/10.1016/j.apmr.2017.05.016)

Reference: YAPMR 56923

To appear in: *ARCHIVES OF PHYSICAL MEDICINE AND REHABILITATION*

Received Date: 9 May 2017

Accepted Date: 9 May 2017

Please cite this article as: Yin M, Chen N, Huang Q, Marla AS, Ma J, Ye J, Mo W, A new and accurate predictive model for the efficacy of extracorporeal shock wave therapy in managing patients with chronic plantar fasciitis, *ARCHIVES OF PHYSICAL MEDICINE AND REHABILITATION* (2017), doi: 10.1016/j.apmr.2017.05.016.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running title: predictive model of ESWT for chronic plantar fasciitis

# **Title: A new and accurate predictive model for the efficacy of extracorporeal shock wave therapy in managing patients with chronic plantar fasciitis**
