This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Communicative Access Measures for Stroke:  
Development and Evaluation of a Quality Improvement Tool**

*Aura Kagan, Ph.D. – Aphasia Institute*

*Nina Simmons-Mackie, Ph.D. – Southeastern Louisiana University*

*J. Charles Victor, M.Sc. – Institute for Clinical and Evaluative Sciences*

*Melodie T.Y. Chan, M.Ed. – Aphasia Institute*

This project has been generously funded, by two grants from the Ontario Ministry of Health and Long-Term Care, administered and supported by the Ontario Stroke Network: 1) Grant number F'08-768, '*Communicative Access Measures for Health Systems: Development and Evaluation*'; and 2) grant number OSN1109-000139, '*Communicative Access Measures for Stroke: Evaluation of Reliability and Usefulness*'. The views expressed do not necessarily reflect those of the ministry or the Ontario Stroke Network. This funder had no involvement in the study design, data collection, analysis and interpretation, nor in the writing of the report and decision to submit the article for publication.
