

Subject Index

Volume 40 (2013)

- A card-type odor identification test;** Parkinson's disease; Olfactory dysfunction; HOEHN and Yahr scale **40**, 173
- Accuracy;** Chronic rhinosinusitis; Computed tomography; Staging system; Lund–Mackay system; Zinreich system; Gradation; Visual score; Objective score; Soft tissue density rate **40**, 548
- Acoustic analysis;** Fibromyalgia; Laryngostroboscopy; Aerodynamic measurements; GRBAS; Voice Handicap Index-10 **40**, 554
- Acoustic rhinometry;** Nasal obstruction; Perception; Rhinomanometry; Subjective; Objective **40**, 81
- Acoustic rhinometry;** Nonspecific hyper-reactivity; Cold dry air **40**, 184
- Adenocarcinoma of the endolymphatic sac;** Endolymphatic sac tumor; Adenoma of the endolymphatic sac; Heffner tumor; von Hippel–Lindau; Low grade papillary adenocarcinoma **40**, 25
- Adenoid cystic carcinoma;** Nasal septum; Olfactory nerve; Anterior skull base **40**, 239
- Adenoma of the endolymphatic sac;** Endolymphatic sac tumor; Adenocarcinoma of the endolymphatic sac; Heffner tumor; von Hippel–Lindau; Low grade papillary adenocarcinoma **40**, 25
- Adults;** Tinnitus; Association; Prevalence; Characteristics; Nigerians **40**, 356
- Aerodynamic measurements;** Fibromyalgia; Laryngostroboscopy; Acoustic analysis; GRBAS; Voice Handicap Index-10 **40**, 554
- AFRS;** Bone erosion; Skull base; Clivus; Eosinophil; Rhinosinusitis **40**, 405
- Age;** Sensitization; House dust mite; Allergic diseases **40**, 543
- Age;** Sudden deafness; Residual tinnitus; Hearing improvement; Prognostic factor; Multivariable regression analysis **40**, 162
- Air-bone gap;** Auditory steady-state response; Bone-conduction; Young children; Conductive hearing loss; Otitis media with effusion **40**, 534
- Allergic diseases;** Sensitization; House dust mite; Age **40**, 543
- Allergic rhinitis;** Topical/oral corticosteroid; Efficacy; Side effect **40**, 277
- Anatomy;** Hypopharynx; Cavernous body; Vessel plexus; Zenker's diverticulum; Killian's triangle; Cricopharyngeal muscle **40**, 93
- Anterior skull base;** Adenoid cystic carcinoma; Nasal septum; Olfactory nerve **40**, 239
- Anti-tumor;** Gold nanoparticle; Nasopharyngeal carcinoma; Cytotoxicity; Cancer **40**, 563
- Anxiety;** Globus; Esophagitis; Fiberoptic endoscopy; VAS; State Trait Anxiety Inventory **40**, 199
- Aspergilloma;** Sphenoid sinus; Sinusitis; Endoscopic sinus surgery; Treatment; Result **40**, 189
- Association;** Tinnitus; Prevalence; Characteristics; Adults; Nigerians **40**, 356
- Asymptomatic;** Intraorbital foreign bodies; Metal **40**, 417
- Auditory steady-state response;** Bone-conduction; Air-bone gap; Young children; Conductive hearing loss; Otitis media with effusion **40**, 534
- Augmentation;** Glottic insufficiency; Buccal fat pad; Navigation system **40**, 500
- Aural atresia;** Bone conduction; Non-osseous conduction; Soft tissue pathway **40**, 440
- Autoimmune pancreatitis;** Warthin's tumor; IgG4-related disease; Inflammatory abdominal aortic aneurysm; Parotid gland tumor **40**, 514
- Azelastine;** Seasonal allergic rhinitis; Phototherapy; Total Nasal Symptom Score; Rhinoconjunctivitis Quality of Life; Questionnaire **40**, 447
- Bell's palsy;** Factors; Meteorological **40**, 361
- Bell's palsy;** Synkinesis; Ramsay Hunt syndrome; Prognosis; Logistic regression; Multivariate analysis **40**, 431
- Benign paroxysmal positional vertigo;** Spontaneous nystagmus; Horizontal semicircular canal; Treatment outcome **40**, 247
- Benign vocal fold lesions;** Voice therapy; Voice Handicap Index; Voice related quality of life **40**, 291
- Bilateral vestibulopathy;** Video head impulse test; Vestibular neuritis; Vertigo; Head impulse test; Ménière's disease; Vestibular schwannoma **40**, 348
- Biofilm;** Otitis media with effusion; Macrolides **40**, 46
- Blindness;** Septic superior ophthalmic vein thrombosis; Lemierre Syndrome; Facial cellulitis; Orbital cellulitis **40**, 493
- Blood loss;** LigaSure® Small Jaw Instrument; Thyroid surgery; Operating time; Complications **40**, 558
- Bone conduction;** Non-osseous conduction; Soft tissue pathway; Aural atresia **40**, 440
- Bone erosion;** AFRS; Skull base; Clivus; Eosinophil; Rhinosinusitis **40**, 405

- Bone-conduction**; Auditory steady-state response; Air-bone gap; Young children; Conductive hearing loss; Otitis media with effusion **40, 534**
- BPPV**; Spontaneous nystagmus; Horizontal Canal; Treatment; Vertigo **40, 117**
- Buccal fat pad**; Glottic insufficiency; Augmentation; Navigation system **40, 500**
- Calcium hydroxylapatite**; Radiess; Tracheoesophageal fistula **40, 491**
- Cancer**; Gold nanoparticle; Nasopharyngeal carcinoma; Cytotoxicity; Anti-tumor **40, 563**
- Cancer**; Sarcoma; Head and neck; Paranasal sinuses; Synovial sarcoma **40, 476**
- Candida species**; Identification; Quantification; Radiotherapy **40, 400**
- Capillary malformation**; Vascular malformations; Venous malformation; Surgery; Sclerotherapy; Hemangioma **40, 89**
- Carcinoma**; Malignant myoepithelioma; Soft palate; Pleomorphic adenoma **40, 231**
- Carcinoma of hypopharynx**; Chemoradiotherapy; Pharyngectomy; TORS **40, 2**
- Cavernous body**; Hypopharynx; Vessel plexus; Zenker's diverticulum; Killian's triangle; Cricopharyngeal muscle; Anatomy **40, 93**
- Cerebral palsy**; Drooling; Children **40, 487**
- Cerebrospinal fluid leak**; Skull fracture; Surgical flaps; Endoscopy; Reconstructive surgical procedures **40, 334**
- Ceruloplasmin**; Nasal polyp; Oxidative stress; Septal deviation; Concha hypertrophy **40, 282**
- Cervical spine kinesitherapy**; Tinnitus; Electrical stimulation **40, 61**
- Changes after treatment**; NK-cells; T-cells; HNSCC; Lymphocyte subsets; Peripheral distribution **40, 216**
- Characteristics**; Tinnitus; Association; Prevalence; Adults; Nigerians **40, 356**
- Chemoradiotherapy**; Carcinoma of hypopharynx; Pharyngectomy; TORS **40, 2**
- Chemoradiotherapy**; Head and neck cancer; Lymph node metastasis; Cisplatin; Nodal control **40, 211**
- Child**; Melanoma; Nasal cavity; Epistaxis; Polyp **40, 235**
- Children**; Drooling; Cerebral palsy **40, 487**
- Choanal stenosis**; Velopharyngeal stenosis; Nasopharyngeal carcinoma; Radiotherapy **40, 323**
- Cholesteatoma**; Facial nerve; Inflammatory pseudotumor; Epidermal nevus syndrome **40, 569**
- Chronic rhinosinusitis**; Clarithromycin; Endoscopic sinus surgery; Postoperative macrolide treatment; Treatment duration **40, 366**
- Chronic rhinosinusitis**; Computed tomography; Staging system; Lund-Mackay system; Zinreich system; Gradation; Accuracy; Visual score; Objective score; Soft tissue density rate **40, 548**
- Chronic rhinosinusitis**; Eosinophils; Interleukin-5; Nitric oxide; Nitric oxide synthase; Nitrotyrosine **40, 458**
- Chronic rhinosinusitis**; Olfactory dysfunction; Eosinophilic rhinosinusitis; Noneosinophilic rhinosinusitis; Risk factor **40, 465**
- Chronic sinusitis**; Rhinoplasty; Endoscopic sinus surgery; Nasal deformity; Nasal obstruction **40, 71**
- Cisplatin**; Dexamethasone; Ototoxicity; Guinea pigs **40, 51**
- Cisplatin**; Head and neck cancer; Chemoradiotherapy; Lymph node metastasis; Nodal control **40, 211**
- Clarithromycin**; Chronic rhinosinusitis; Endoscopic sinus surgery; Postoperative macrolide treatment; Treatment duration **40, 366**
- Clivus**; AFRS; Bone erosion; Skull base; Eosinophil; Rhinosinusitis **40, 405**
- CO₂ laser surgery**; Scleroma; Laryngotracheal stenosis; Laryngotracheal reconstruction; Partial cricotracheal resection; Thyrotracheal anastomosis **40, 388**
- Cocaine**; Olfactory receptor cell; Sodium current; Potassium current; Whole cell patch-clamp technique; Nasal surgery **40, 66**
- Cochlea**; Dopamine; Reissner's membrane; Epithelial sodium channel; Voltage-sensitive vibrating probe; Gerbil **40, 266**
- Cochlea**; Noise; Morphology; Hearing **40, 11**
- Cochlear destruction**; Cochlear implantation; Epstein syndrome **40, 409**
- Cochlear implant**; Complication; Flap-related problem; Electrode slip-out; Device failure **40, 525**
- Cochlear implant**; Developmental delay; Speech perception **40, 32**
- Cochlear implant**; *CJB2* hearing impairments; Genetic testing; Hereditary hearing loss **40, 435**
- Cochlear implant**; Speech processor; Electrical threshold (THR); Maximum comfortable level (MCL) **40, 260**
- Cochlear implantation**; Epstein syndrome; Cochlear destruction **40, 409**
- Cochlear implantation**; Osteogenesis imperfecta; Facial nerve stimulation **40, 510**
- Cochlin**; Perilymphatic fistula; Stapes surgery; Cochlin-tomoprotein **40, 422**
- Cochlin-tomoprotein**; Perilymphatic fistula; Stapes surgery; Cochlin **40, 422**
- Cold dry air**; Nonspecific hyper-reactivity; Acoustic rhinometry **40, 184**
- Combined small cell carcinoma**; Squamous cell carcinoma; Hypopharynx **40, 106**
- Complication**; Cochlear implant; Flap-related problem; Electrode slip-out; Device failure **40, 525**
- Complication**; Laryngeal cancer; Infection; Radiation failure **40, 207**
- Complication**; Pyogenic spondylodiscitis; Transoral surgery; Oropharyngeal cancer **40, 320**
- Complication**; Tympanostomy tube; Tube removal; Otitis media with effusion **40, 150**
- Complications**; LigaSure® Small Jaw Instrument; Thyroid surgery; Operating time; Blood loss **40, 558**
- Computed tomography**; Chronic rhinosinusitis; Staging system; Lund-Mackay system; Zinreich system; Gradation; Accuracy; Visual score; Objective score; Soft tissue density rate **40, 548**
- Computer-assisted image processing**; Surgical flaps; Organ size; Tongue; Treatment outcome **40, 303**
