Impact of chronic kidney disease on household income

Rachael L. Morton, PhD, Iryna Schlackow, DPhil, Alastair Gray, PhD, Jonathan Emberson, PhD, William Herrington, MD, Natalie Staplin, PhD, Christina Reith, FRCP, Kirsten Howard, PhD, Martin J. Landray, PhD FRCP, Alan Cass, PhD, Colin Baigent, BMBCh, Borislava Mihaylova, DPhil

PII: S2468-0249(17)30479-5

DOI: [10.1016/j.ekir.2017.12.008](https://doi.org/10.1016/j.ekir.2017.12.008)

Reference: EKIR 287

To appear in: *Kidney International Reports*

Received Date: 13 October 2017

Revised Date: 11 December 2017

Accepted Date: 18 December 2017

Please cite this article as: Morton RL, Schlackow I, Gray A, Emberson J, Herrington W, Staplin N, Reith C, Howard K, Landray MJ, Cass A, Baigent C, Mihaylova B, on behalf of the SHARP Collaborative Group, Impact of chronic kidney disease on household income, *Kidney International Reports* (2018), doi: 10.1016/j.ekir.2017.12.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of chronic kidney disease on household income

Running title: CKD and household income
