ACKNOWLEDGEMENTS

This study is funded by NIH (DK0093496; PLV). We would like to acknowledge grant support from NIH CTSA UL1TR000117. This material is the result of work supported with resources and the use of facilities at the Lexington (Kentucky) Veterans Affairs Medical Center. Judy Glass and Xiu Xu provided excellent technical assistance. Barbara Kahn, MD provided excellent assistance in the collection of bacterial cystitis and non-cystitis samples.
