Dr. Moawad is a speaker for Intuitive Surgical. Dr. Robinson is a speaker for Allergan. All other authors have nothing to disclose.

Modern medicine is becoming increasingly dissimilar to the practice of the past. The rate at which we double our acquisition of medical knowledge continues to accelerate. Advances in computing, micro-technology, and engineering have radically transformed our clinics and operating rooms. Over the past one hundred years, the United States saw a dramatic upsurge in the number of medical specialties (1). Sub-specialization within those specialties holds great promise but also
