E-mail: clarissa.frasca@yahoo.it

Conflict of interest statement: The authors have no conflicts of interest to declare.

Précis: Pelvic ultrasound can provide an accurate characterization of uterine myomas and should
be utilized as part of the preoperative evaluation before laparoscopic myomectomy.

Comment [A1]: AUTHOR: Two different versions of Précis section were provided and the one in manuscript has been used. Please check and confirm that it is correct.
