Potential impact of including Time to First Cigarette into risk models for selecting ever-smokers for lung-cancer screening

Fangyi Gu, Li C. Cheung, Neal D. Freedman, Hormuzd A. Katki, Neil E. Caporaso

PII: S1556-0864(17)30664-0

DOI: [10.1016/j.jtho.2017.08.001](https://doi.org/10.1016/j.jtho.2017.08.001)

Reference: JTHO 668

To appear in: *Journal of Thoracic Oncology*

Received Date: 25 May 2017

Revised Date: 31 July 2017

Accepted Date: 1 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Potential impact of including Time to First Cigarette into risk models for selecting ever-smokers for lung-cancer screening

Running Title: Time to first cigarette and lung cancer risk prediction model
