Vulnerability of corneal endothelial cells to mechanical trauma from indentation forces assessed using contact mechanics and fluorescence microscopy

Manuel A. Ramirez-Garcia, Yousuf M. Khalifa, Mark R. Buckley

PII: S0014-4835(18)30133-7

DOI: [10.1016/j.exer.2018.06.005](https://doi.org/10.1016/j.exer.2018.06.005)

Reference: YEXER 7397

To appear in: *Experimental Eye Research*

Received Date: 26 February 2018

Revised Date: 17 May 2018

Accepted Date: 4 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Vulnerability of Corneal Endothelial Cells to Mechanical Trauma from Indentation Forces Assessed Using Contact Mechanics and Fluorescence Microscopy
