

Accepted Manuscript

Myeloid cells contribute indirectly to VEGF expression upon hypoxia via activation of Müller cells

Christina Nürnberg, Norbert Kociok, Claudia Brockmann, Timo Lischke, Sergio Crespo-Garcia, Nadine Reichhart, Susanne Wolf, Ria Baumgrass, Sabine A. Eming, Sandra Beer-Hammer, Antonia M. Jousen

PII: S0014-4835(17)30458-X

DOI: [10.1016/j.exer.2017.10.011](https://doi.org/10.1016/j.exer.2017.10.011)

Reference: YEXER 7222

To appear in: *Experimental Eye Research*

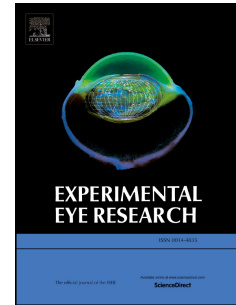

Received Date: 20 July 2017

Revised Date: 6 September 2017

Accepted Date: 8 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Myeloid cells contribute indirectly to VEGF expression upon hypoxia via**
2 **activation of Müller cells**
