

## Accepted Manuscript

Strain behavior of malaligned cervical spine implanted with metal-on-polyethylene, metal-on-metal, and elastomeric artificial disc prostheses – A finite element analysis

Wen-Ming Chen, Jie Jin, Taehyung Park, Kyeong-Sik Ryu, Sung-Jae Lee

PII: S0268-0033(18)30305-X  
DOI: doi:[10.1016/j.clinbiomech.2018.08.005](https://doi.org/10.1016/j.clinbiomech.2018.08.005)  
Reference: JCLB 4587  
To appear in: *Clinical Biomechanics*  
Received date: 6 April 2018  
Accepted date: 9 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
