Biomechanical properties of low back myofascial tissue in younger adult ankylosing spondylitis patients and matched healthy control subjects

Allison White, Hannah Abbott, Alfonse T. Masi, Jacqueline Henderson, Kalyani Nair

PII: S0268-0033(18)30201-8
DOI: doi:[10.1016/j.clinbiomech.2018.06.006](https://doi.org/10.1016/j.clinbiomech.2018.06.006)
Reference: JCLB 4549
To appear in: *Clinical Biomechanics*
Received date: 7 March 2018
Accepted date: 4 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

Biomechanical Properties of Low Back Myofascial Tissue in Younger Adult
Ankylosing Spondylitis Patients and Matched Healthy Control Subjects
