

## Accepted Manuscript

Title: Psychometric properties of outcome measures evaluating decline in gait in cerebellar ataxia: a systematic review

Authors: Sarah C. Milne, Anna Murphy, Nellie Georgiou-Kristian's, Eppie M. Yiu, Martin B. Delatycki, Louise A. Corben

PII: S0966-6362(17)31060-3  
DOI: <https://doi.org/10.1016/j.gaitpost.2017.12.031>  
Reference: GAIPOS 5914

To appear in: *Gait & Posture*

Received date: 1-10-2017  
Revised date: 14-12-2017  
Accepted date: 29-12-2017

**Highlights**

- Psychometric properties of gait outcomes in cerebellar ataxia are poorly evaluated
- Double support and swing percentage showed responsiveness to natural decline
- Velocity and step length showed greatest responsiveness in clinical trials
