A multicenter study of irrigation and debridement in total knee arthroplasty periprosthetic joint infection: Treatment failure is high

Kenneth L. Urish, MD, PhD, Andrew G. Bullock, BS, Alex Kreger, BS, Neel B. Shah, MD, Kwonho Jeong, MS, Scott D. Rothenberger, PhD

PII: S0883-5403(17)31034-3

DOI: [10.1016/j.arth.2017.11.029](https://doi.org/10.1016/j.arth.2017.11.029)

Reference: YARTH 56236

To appear in: *The Journal of Arthroplasty*

Received Date: 23 June 2017

Revised Date: 7 November 2017

Accepted Date: 8 November 2017

Please cite this article as: Urish KL, Bullock AG, Kreger A, Shah NB, Jeong K, Rothenberger SD, the Infected Implant Consortium, A multicenter study of irrigation and debridement in total knee arthroplasty periprosthetic joint infection: Treatment failure is high, *The Journal of Arthroplasty* (2017), doi: 10.1016/j.arth.2017.11.029.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A multicenter study of irrigation and debridement in total knee arthroplasty periprosthetic joint infection: Treatment failure is high

Running title: TKA PJI I&D failure rates

Kenneth L. Urish MD, PhD, Andrew G. Bullock BS, Alex Kreger BS, Neel B. Shah MD, Kwonho Jeong MS, Scott D. Rothenberger PhD, and the Infected Implant Consortium

Kenneth Urish MD PhD; Arthritis and Arthroplasty Design Group, The Bone and Joint Center, Magee Womens Hospital of the University of Pittsburgh Medical Center; Department of Orthopaedic Surgery, Department of Bioengineering, and Clinical and Translational Science Institute, University of Pittsburgh; Department of Biomedical Engineering, Carnegie Mellon University, Pittsburgh, PA, 15219; urishk2@upmc.edu

Griffin Bullock, BS; Alexander M. Kreger; University of Pittsburgh School of Medicine, Pittsburgh, PA 15261

Neel B. Shah, M.D.; Division of Infectious Disease, Department of Internal Medicine; University of Pittsburgh Medical Center, Pittsburgh, PA 15219

Kwonho Jeong MS & Scott Rothenberger PhD; Clinical and Translation Science Institute; Department of Medicine, University of Pittsburgh, Pittsburgh, PA 15213

The Infected Implant Consortium is a working group comprised of all authors above as well as: James J. Irrgang PhD PT, Brian A. Klatt MD, Brian R. Hamlin MD

James J. Irrgang PT, PhD, ATC, FAPTA; Department of Physical Therapy; Department of Orthopaedic Surgery; University of Pittsburgh; Pittsburgh, PA 15219

Brian Klatt MD; Department of Orthopaedic Surgery; University of Pittsburgh; Pittsburgh, PA 15219

Brian R. Hamlin MD; The Bone & Joint Center, Magee Womens Hospital of the University of Pittsburgh Medical Center, Pittsburgh, PA 15212

Dr. Kenneth Urish is supported in part by the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS K08AR071494), the National Center for Advancing Translational Science (NCATS KL2TR0001856), the Orthopaedic Research and Education Foundation, and the Musculoskeletal Tissue Foundation.

This study was performed at the Department of Orthopaedic Surgery and Clinical and Translation Science Institute at the University of Pittsburgh, Pittsburgh, PA, USA
