This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Subacromial Impingement Syndrome: An Electromyographic Study of Shoulder Girdle Muscle Fatigue

Running Title: Subacromial Impingement and Muscle Fatigue

Authors:

Omid Alizadehkhayat¹ – MD, PhD

Margaret M Roebuck² - PhD

Ahmed T Makki² – MD, PhD

Simon P Frostick² - DM, FRCSEng, FRCSEd, FFSTEd

1. School of Health Sciences (Sport and Exercise Science), Liverpool Hope University, Liverpool, UK

2. Musculoskeletal Science Research Group, Institute of Translational Medicine, University of Liverpool, Liverpool, UK

First Author and Corresponding Author:

Dr Omid Alizadehkhayat

School of Health Sciences, Liverpool Hope University
