Title: Emergency department visits after lumbar spine surgery are associated with lower HCAHPS scores

Author: Jay M. Levin, Robert D. Winkelman, Gabriel A. Smith, Joseph E. Tanenbaum, Roy Xiao, Thomas E. Mroz, Michael P. Steinmetz

PII: S1529-9430(17)30317-0
DOI: <http://dx.doi.org/doi: 10.1016/j.spinee.2017.06.043>
Reference: SPINEE 57383

To appear in: *The Spine Journal*

Received date: 19-4-2017
Revised date: 12-6-2017
Accepted date: 28-6-2017

Please cite this article as: Jay M. Levin, Robert D. Winkelman, Gabriel A. Smith, Joseph E. Tanenbaum, Roy Xiao, Thomas E. Mroz, Michael P. Steinmetz, Emergency department visits after lumbar spine surgery are associated with lower HCAHPS scores, *The Spine Journal* (2017), <http://dx.doi.org/doi: 10.1016/j.spinee.2017.06.043>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Emergency Department Visits after Lumbar Spine Surgery are Associated**
2 **with Lower HCAHPS Scores**
