Infant, Maternal, and Hospital Factors' Role in Loss to Follow-Up After Failed Newborn Hearing Screening

Maureen Cunningham, MD MPH, Vickie Thomson, PhD, Erica McKiever, MA, L. Miriam Dickinson, PhD, Anna Furniss, MS, Mandy A. Allison, MD MSPH

PII: S1876-2859(17)30321-2

DOI: [10.1016/j.acap.2017.05.005](https://doi.org/10.1016/j.acap.2017.05.005)

Reference: ACAP 1040

To appear in: *Academic Pediatrics*

Received Date: 20 September 2016

Revised Date: 7 April 2017

Accepted Date: 10 May 2017

Please cite this article as: Cunningham M, Thomson V, McKiever E, Dickinson LM, Furniss A, Allison MA, Infant, Maternal, and Hospital Factors' Role in Loss to Follow-Up After Failed Newborn Hearing Screening, *Academic Pediatrics* (2017), doi: 10.1016/j.acap.2017.05.005.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Infant, Maternal, and Hospital Factors' Role in Loss to Follow-Up After Failed Newborn Hearing Screening
