Double apple-peel intestinal atresia

Keigo Yada, Hiroki Mori, Hiroki Ishibashi

PII: S2213-5766(18)30163-5

DOI: [10.1016/j.epsc.2018.07.004](https://doi.org/10.1016/j.epsc.2018.07.004)

Reference: EPSC 1033

To appear in: *Journal of Pediatric Surgery Case Reports*

Received Date: 27 June 2018

Accepted Date: 6 July 2018

Please cite this article as: Yada K, Mori H, Ishibashi H, Double apple-peel intestinal atresia, *Journal of Pediatric Surgery Case Reports* (2018), doi: 10.1016/j.epsc.2018.07.004.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Is the coiled-up intestine always distal to the closed site ?
- A lesson from an extremely rare case with ‘double’
apple-peel atresia -
