Cystoscopy: A useful investigation tool to diagnose urinary schistosomiasis in Ireland, a non-endemic country

K. Seomangal, B. Kutasy, T. Sri Paran

PII: S2213-5766(16)30238-X

DOI: [10.1016/j.epsc.2017.07.002](https://doi.org/10.1016/j.epsc.2017.07.002)

Reference: EPSC 778

To appear in: *Journal of Pediatric Surgery Case Reports*

Received Date: 21 November 2016

Accepted Date: 4 July 2017

Please cite this article as: Seomangal K, Kutasy B, Paran TS, Cystoscopy: A useful investigation tool to diagnose urinary schistosomiasis in Ireland, a non-endemic country, *Journal of Pediatric Surgery Case Reports* (2017), doi: 10.1016/j.epsc.2017.07.002.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cystoscopy: A useful investigation tool to diagnose urinary schistosomiasis in Ireland, a non-endemic country

K Seomangal¹, B Kutasy¹ and T Sri Paran¹
