This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:****Developmental Changes in Aortic Mechanical Properties in Normal Fetuses and Fetuses with Cardiovascular Disease****Short Title:** Developmental Changes in Fetal aortic properties**Conflict of interest:** none declared**Word count:** 1766**Key words:** Fetal cardiology; aortic compliance; congenital heart disease; pregnancy; uteroplacental Doppler flow
