This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

OMPFC connectivity in major depression – Samara et al.

Short Title: OMPFC connectivity in major depression

Title: Orbital and medial prefrontal cortex functional connectivity of major depression vulnerability and disease

Authors: Zoe Samara¹, Elisabeth A.T. Evers¹, Frenk Peeters¹, Harry B.M. Uylings², Grazyna Rajkowska³, Johannes G. Ramaekers¹ and Peter Stiers¹

Affiliations:
