This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Demonstrating the relevance of having uniform specifications for light therapy devices for scientific reasons as for societal reasons.
- Giving guidelines and instructions towards defining these uniform specifications.
- Linking the discipline of affective disorders to the discipline of lighting technology.
