Multiple Cortical Thickness Sub-Networks and Cognitive Impairments in First Episode, Drug Naïve Patients with Late Life Depression: A Graph Theory Analysis

Jeong-Hyeon Shin, Yu Hyun Um, Chang Uk Lee, Hyun Kook Lim, Joon-Kyung Seong

PII: S0165-0327(17)30380-4
DOI: <https://doi.org/10.1016/j.jad.2017.12.083>
Reference: JAD9491

To appear in: *Journal of Affective Disorders*

Received date: 21 February 2017
Revised date: 5 December 2017
Accepted date: 31 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
