DOI: [10.1016/j.dhjo.2017.05.005](https://doi.org/10.1016/j.dhjo.2017.05.005)

Reference: DHJO 615

To appear in: *Disability and Health Journal*

Received Date: 27 February 2017

Revised Date: 28 May 2017

Accepted Date: 29 May 2017

Please cite this article as: Di Marino E, Tremblay S, Khetani M, Anaby D, The effect of child, family and environmental factors on the participation of young children with disabilities, *Disability and Health Journal* (2017), doi: [10.1016/j.dhjo.2017.05.005](https://doi.org/10.1016/j.dhjo.2017.05.005).

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title of the manuscript: The effect of child, family and environmental factors on the participation of young children with disabilities

Authors

1. **Erica Di Marino**, MScAOT, McGill University
2. **Stephanie Tremblay**, MScAOT, McGill University
3. **Mary Khetani**, PhD, OTR/L. University of Illinois at Chicago
4. **Dana Anaby***, PhD.

Assistant Professor, School of Physical and Occupational Therapy, McGill University,
Hosmer House room #302, 3630 Promenade Sir-William-Osler, Montreal, QC H3G 1Y5,
Tel: 1 (514) 398-4400 Ext 00394

***Dana Anaby is the corresponding author.**

Key Words: Participation; Environment; Preschoolers; Disability

Publishable statements of funding or conflicts of interest:

This study has not been published and will not be submitted elsewhere for publication while being considered by the Disability and Health Journal. It has been presented once, in a poster format, at a conference intended for Canadian occupational therapists.

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors. As the corresponding author, I certify that all funding information and conflict-of-interest disclosures are complete for both myself and my co-authors.

Acknowledgments: We would like to thank Lora Salvo and Alexandra Boxer for their contributions to the study.

Abstract word count: 250

Manuscript word count (to include body text and figure legends): 3766

Number of references: 41

Number of figures/tables: 4
