Cardiopulmonary exercise testing in hepato-biliary & pancreas cancer surgery – A systematic review: Are we any further than walking up a flight of stairs?

R. Kumar, G. Garcea

PII: S1743-9191(18)30548-X

DOI: [10.1016/j.ijot.2018.02.019](https://doi.org/10.1016/j.ijot.2018.02.019)

Reference: IJSU 4437

To appear in: *International Journal of Surgery*

Received Date: 13 December 2017

Revised Date: 19 January 2018

Accepted Date: 9 February 2018

Please cite this article as: Kumar R, Garcea G, Cardiopulmonary exercise testing in hepato-biliary & pancreas cancer surgery – A systematic review: Are we any further than walking up a flight of stairs?, *International Journal of Surgery* (2018), doi: 10.1016/j.ijot.2018.02.019.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

CARDIOPULMONARY EXERCISE TESTING IN HEPATO-BILIARY & PANCREAS CANCER SURGERY – A SYSTEMATIC REVIEW: ARE WE ANY FURTHER THAN WALKING UP A FLIGHT OF STAIRS?

Kumar R and Garcea G

Short Title: CPET & HPB CANCER SURGERY

Centre: Department of Hepato-Pancreato-Biliary Surgery
University Hospitals of Leicester
Leicester
LE5 4PW

Corresponding Author: Rohan Kumar

Manuscript Type: Systematic Review

Key words: CPET, Hepato-Biliary and Pancreas Cancers, Pre-operative Risk

Abbreviations: CPET (cardiopulmonary exercise testing), LOS (length of inpatient stay) Duke Activity Status Index (DASI)

Contributions: RK – acquisition of data / analysis / drafting and critical appraisal and final approval and accountability for all aspects of work
GG - Drafting and critical appraisal and final approval and accountability for all aspects of work

Both authors advise that there are no conflicts of interest to declare. Both authors advise that they did not receive any awards or grants. Both authors advise that there are no acknowledgements to be made. Both authors are in agreement and approve the final manuscript. There are no financial or personal relations that could inappropriately influence (bias) our conclusions for our work.
