The Surgical Personality: Does Surgery Resident Motivation Predict Attrition?

Matthew M. Symer, MD, Jonathan S. Abelson, MD MS, Heather L. Yeo, MD MHS
FACS, Julie A. Sosa, MD MA FACS, M Zachary Rosenthal, PhD

PII: S1072-7515(18)30161-3

DOI: [10.1016/j.jamcollsurg.2018.02.007](https://doi.org/10.1016/j.jamcollsurg.2018.02.007)

Reference: ACS 9076

To appear in: *Journal of the American College of Surgeons*

Received Date: 29 November 2017

Revised Date: 8 January 2018

Accepted Date: 5 February 2018

Please cite this article as: Symer MM, Abelson JS, Yeo HL, Sosa JA, Rosenthal MZ, The Surgical Personality: Does Surgery Resident Motivation Predict Attrition?, *Journal of the American College of Surgeons* (2018), doi: 10.1016/j.jamcollsurg.2018.02.007.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Surgical Personality: Does Surgery Resident Motivation Predict Attrition?

Matthew M Symer MD¹, Jonathan S Abelson MD MS¹, Heather L Yeo MD MHS FACS¹, Julie A Sosa MD MA FACS³, M Zachary Rosenthal PhD⁴

¹Department of Surgery, NewYork-Presbyterian Hospital/Weill Cornell Medicine, New York, NY

²Departments of Surgery and Medicine, Duke University, Durham, NC

³Department of Psychiatry and Behavioral Sciences, Duke University, Durham, NC

Disclosure Information: Dr Sosa serves on the Data Monitoring Committee of the Medullary Thyroid Cancer Consortium Registry supported by Novo Nordisk, GlaxoSmithKline, Astra Zeneca, and Eli Lilly.

Disclosures outside the scope of this work: Dr Yeo's spouse receives salary from Bioscrip, Inc, a home infusion company. The work of this company is not related to or discussed in the content of the manuscript.

Support: Drs Symer and Abelson received support from AHRQ training grant T32-HS000066-23.

Support for this study: This work was supported by the Robert Wood Johnson Foundation.

Presented at the American College of Surgeons 103rd Annual Clinical Congress, San Diego, CA, October 2017.
